

Full Accessories Catalogue for Commercial Vehicles

2023

Volkswagen Accessories

100 % Volkswagen

Every single Volkswagen Genuine Accessories product is developed in parallel with the vehicle itself and manufactured from high-quality materials using modern production processes. We carry out strict safety tests on many of our accessories, some of which exceed the legally required standards. So you stay satisfied – and your Volkswagen stays a Volkswagen.

10 Vehicle-specific **Accessories**

Add an extra special touch to your vehicle. In the first section you will find our range of custom-fit aerodynamic and design solutions, as well as individual accessories for your specific vehicle model. They're sure to get you noticed!

10 Amarok

16 Caddy

28 Crafter

38 ID. Buzz

48 Multivan

60 T6.1

76 Universal **Accessories**

From charging systems, alloy wheels, and communication and transport products to practical solutions for added comfort and protection: The second section showcases our universal accessories products, clearly arranged in chapters. Tables at the end quickly show you which products are available for your vehicle. The universal accessories are not specific to particular models, but are designed to fit perfectly in a number of models. With the consistent brand quality expected from Volkswagen Accessories.

Pick your section of choice

Complete wheels you can rely on

Understanding the essentials. Our manufacturing expertise.

Our complete wheels represent everything that Volkswagen Accessories stands for: Outstanding quality and safety standards as well as state-of-the-art design. When it comes to safe driving and the vehicle's overall appearance almost no other vehicle component carries as much responsibility as wheels and tyres. Our selection of complete wheels is a sophisticated range of fully assembled Volkswagen Genuine wheels and branded tyres. Complete wheels from Volkswagen Accessories are optimally matched to the respective Volkswagen model. Based on many years of experience, our engineers choose the wheel, tyre and vehicle combination to ensure that every design meets Volkswagen's high quality and safety standards. Just ask your Volkswagen dealership for the complete wheels currently available for your Volkswagen.

Volkswagen Genuine dynamic hubcaps¹ (shown on the right) impress with their dynamic spinning function and guarantee that the logo is positioned correctly while driving and in any parked position. Also available for ID. models.

01 Only the best succeed

Volkswagen Genuine alloy wheels

- Strength tests check the wheel loads when the vehicle is overloaded, in a collision and driving round corners.
- The materials and surfaces are tested for resistance to traction, extension, scratches and corrosion.
- Test drives on the track put the complete wheels through their paces under tough conditions.
- Endurance testing on the dual axle wheel test bench simulates the highest possible load.

02 Extreme endurance athletes

Branded tyres from well-known manufacturers

Over the course of its average service life, a tyre can travel far enough to circumnavigate the globe. As the main component that keeps the vehicle connected to the road, they have to be designed to handle the broadest range of road conditions while simultaneously remaining highly resistant – that's why top-quality tyres are an absolute must for Volkswagen. Thanks to our cooperation with leading premium tyre manufacturers, our tyres provide you with good contact with the road.

03 Harmonious interplay

The complete wheel assembly

Using the latest production facilities fully-automatic assembly combines wheels and tyres to form a single high-quality unit. Our precise assembly procedures are carried out in temperature-controlled environments to help ensure that all of our complete wheels are of the highest quality, and also provide you with a range of other key advantages:

- Optimal concentricity and axial measurement for each wheel
- Vehicle-specific residual imbalance check
- Proper storage until the complete wheels are ready for delivery

Quality is when it just fits

For everyone who wants more: even more

More intelligent transport options, for instance. Or simply more of the tried-and-trusted Volkswagen Genuine Accessories quality. We know that this trust is not simply granted to our Genuine parts. It has to be earned again and again, day after day. By using materials that can optimally be combined with each other, product designs that simply look better and functions that easily open up better opportunities. In short: by making good things better every day. More beautiful, more functional, more comfortable.

Uncompromising satisfaction

Tougher, stronger, further, more – Volkswagen Genuine Accessories undergo strict internal test processes. In terms of materials, in the laboratory and finally on the proving grounds. Only 100 % top quality products earn the Volkswagen Genuine name. No compromises.

Laboratory tests: corrosion tests in salt water spray systems, UV resistance and many other laboratory tests examine all the relevant material properties. Certain products are exposed to extreme temperatures in climatic chamber tests. To pass, the functionality of the components must remain unimpaired whatever the conditions.

Endurance: durability under continuous load conditions is tested here, whether over short distances, at high speed or over various demanding terrain profiles.

Test track: our test drives with very high forward and side-to-side acceleration, produced by weaving around obstacles, hard braking and by driving on cobblestone surfaces, subject the transport accessories to extremely tough conditions over and over again.

Test bench: Genuine Accessories have to pass complex mechanical safety and strength tests in a series of different trials, including the City Crash test in accordance with DIN 75302.

**Genuine quality is
always worthwhile:**

- Made-to-measure
- Simple installation
- Sophisticated system solutions
- High design standards

Accessories **Amarok**

The Amarok almost cannot get enough variety: it is so versatile that it can overcome almost any challenge – both as a tough commercial vehicle and as an off-road piste vehicle. Naturally with all the right Genuine Accessories.

The following vehicle-specific Genuine Accessories have been specially tailored to your Amarok. Equally as perfectly fitting, but model-independent universal Genuine Accessories can be found from page 76 onward.

More universal accessories for your Amarok can be found from page 76 onward.

Accessories **Caddy**

It's great when your vehicle is up for almost any serious job, and almost any fun job too. And if it also provides extra comfort, variability and connectivity too, then you've got one of the most popular vehicles in its class: the Caddy. Ready to face anything that is thrown at it. Including your personal requests.

The following vehicle-specific Genuine Accessories have been specially tailored to your Caddy. Equally as perfectly fitting, yet model-independent universal accessories can be found from page 76 onward.

01-02 Take almost everything you need with you in your Caddy. **Volkswagen Genuine cross bars**¹ (01) made of aerodynamically shaped aluminium profiles for vehicles with roof rails and the perfectly fitting and fully pre-mounted **Volkswagen Genuine roof bars**² (02) form the basis for the quick and stable fitting of all roof attachments. The **Volkswagen Genuine extension set** (02) for the roof bars provides you with a single roof bar you can use to flexibly extend the transport options of the roof bars. The roof bar is coordinated to the roof bar set and is easy to fit. The **luggage rack** (not shown) for vehicles with wing door or tailgate offers a wealth of different transport options, and is, above all, suitable for use with longer objects. Thanks to its hard-wearing aluminium construction, the rack is stable and weather-resistant.

¹ Only for vehicles with silver-coloured roof rails.

² Only for vehicles without roof rails.

Transport

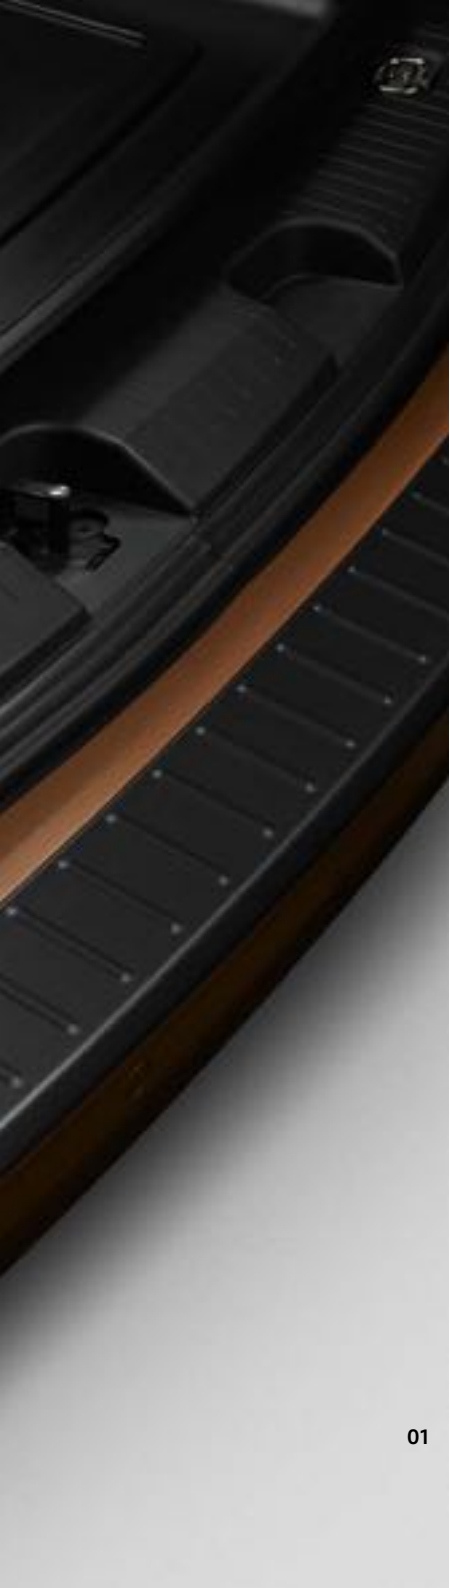

01 The retrofit fixed (not shown) or removable **Volkswagen Genuine towing bracket** provides a good base for attaching a bicycle carrier or trailer¹. The required 13-pin **electrical installation kit** (not shown) needs to be ordered separately.

¹ Please note the maximum trailer weight of your vehicle.

Comfort and Protection

01

02

03

01-04 Pack practically and transport directly. The wide-ribbed **Volkswagen Genuine boot liner** (01) with Caddy lettering is hard-wearing and suitable for anything that tends to make a mess in the luggage compartment of your Caddy, such as dirty shoes or plants. It is easy to clean, thanks to its smooth plastic finish. The **Volkswagen Genuine luggage compartment insert** (02) combines practical benefits, protection, convenience and quality. Its slip-resistant surface prevents objects from sliding around. It can also keep dirt and moisture out of your luggage compartment. The tough, durable and custom-fit **Volkswagen Genuine luggage compartment tray** (03) with Caddy lettering improves the cleanliness of your luggage compartment. The surrounding raised rim reduces the risk of liquids leaking into the luggage compartment. Custom-fit **Volkswagen Genuine reversible floor coverings** (04) have the right surface for sensitive, dirty or damp goods. The robust protective fabric for the load sill can be folded out from the reversible floor covering, and so helps to prevent scratches when loading and unloading.

04

DETAILS

Once turned, the sturdy plastic studs on the rear side of the reversible floor covering fix it into place so that it can protect your vehicle from even serious dirt and heavy loads.

01

01-02 Create order in the luggage compartment of your Caddy. Ensure that small and medium-sized objects stay where they are meant to with the **Volkswagen Genuine luggage net** (01). The **Volkswagen Genuine partition grille** (02) helps to partition the vehicle interior and luggage compartment. Ideal when dogs are on board.

02

Comfort and Protection

03-06 Attractive design does not rule out exceptional functionality. The **Volkswagen Genuine load sill protection in stainless steel look** (03) or black, grained look (04) looks good but also can protect the paintwork. The practical, made-to-measure **Volkswagen Genuine load sill protection** (05) is made of transparent film and prevents damage during loading and unloading. It is simply glued to the load sill of the rear bumper. Rely on high-quality **Volkswagen Genuine sill panel moulding films in black/silver** (06) to protect your heavily used door sills.

01

02

03

01-04 The custom-fit **Volkswagen Genuine sun blind** (01) protects the occupants from direct sunlight. So now summer journeys are also a 'cool' treat for the passengers on the rear bench seat of your Caddy. A constant speed at the press of a button: with the retrofit **Volkswagen Genuine cruise control system**^{1,2} (02). The reset function automatically accelerates to the speed previously set after braking and/or gear changes. Protect your Caddy and the vehicle behind from flying dirt, hazardous stone chips and spray with these hard-wearing **Volkswagen Genuine mudflaps** (03) for the front and rear. Almost everything in view. The **Volkswagen Genuine Rear view camera system**^{3,4} (04) realistically depicts the area behind your Caddy on the display of your radio navigation system. Reference lines and the high-resolution display help the driver navigate precisely into the parking space.

04

¹ Gradients and slopes may affect the performance of the cruise control system. Please take system limits into account.

² Only for vehicles without multifunction steering wheel.

³ Only for vehicles with a tailgate.

⁴ Please note the camera's limited field of vision and the limits of the system. Please follow the information in the vehicle wallet precisely.

Comfort and Protection

05-09 In line with the principle "It's what's inside that matters", Volkswagen Accessories attaches great importance to protecting the interior of your vehicle. The tailor-made **Volkswagen Genuine "Premium" textile floor mats (05)** made of hard-wearing velour feature Caddy lettering on the front mats. **Volkswagen Genuine "Optimat" textile floor mats (06)** with Caddy lettering on the front mats combine the qualities of rubber floor mats with the elegance of textile floor mats. Hard-wearing **Volkswagen Genuine all-weather floor mats (07)** with Caddy lettering on the front mats and the hard-wearing **rubber floor mats** (not shown) can help to keep dirt and moisture away from the footwell. Practical **"Plus" rubber floor mats (08)** and **"Plus" textile floor mats (09)** also ensure pleasant cleanliness in the footwell of your vehicle.

Camping and Leisure

01

Wheels

Alloy wheels

"Merano", 16-inch
Brilliant Silver

Snow chains

"Snox"
17-inch

"Servo 9"
16, 17-inch

Further accessories for your wheels, including the valve caps, wheel bolt locking set, tyre bag set and snow chains, can be found from page 113 onward.

The requirements of the current ABE (German type approval) or current certification must be complied with. Please use the standard-fit wheel bolts provided. Please ensure that the load index (LI) of the selected tyres is not lower than the LI specified in the vehicle documents or CoC papers. All winter alloy wheels are treated with a special ultra-resistant coating to ensure that they are suitable for use in winter.

01-02 Now enjoy cooking even more and have a restful night's sleep when camping – thanks to the **"KombiBox" mobile kitchen** (01). The mobile kitchen is handily stowed in the luggage compartment and contains all the essential things you need to have with you for a trip: bed, kitchen, water supply and storage space with telescopic drawer, possibly for a refrigerator box. It can be set up in under a minute. The kitchen is also ready for use in a few minutes and the comfortable bed can be folded out in a single movement. Have your own personal water supply on board with the practical **portable shower** (02), whether you wish to shower, do the dishes or wash your dog.

This table shows the available options with the individual products and our current vehicle models.

Please contact your Volkswagen dealership for more information about whether the options can be installed on your particular vehicle.

The specified installation times are guidelines, 100 TU (time units) correspond to one hour. Valid from January 2023.

Accessories **Crafter**

The core attributes of the Crafter: powerful, comfortable and consistent. Less is just not an option. But there is more. Just as much as you need for your successful everyday working life.

The following vehicle-specific accessories have been specially tailored to your Crafter.

Equally as perfectly fitting, yet model-independent universal accessories can be found from page 76 onward.

Image shows: Roof bars page 29,
high bracket set / angle brackets page 29

01-03 You're best equipped out on the road with custom-fit Volkswagen Accessories' transport solutions. Custom-fit **Volkswagen Genuine roof bars** (01) made of aerodynamically shaped aluminium profiles form the base for the quick and stable fitting of all roof attachments. This **ladder holder** (02) for the roof bars lets you carry your ladders on the vehicle roof without damaging the paintwork. The **high bracket set** or **angle brackets** (03) are ideal for the stable transport of long objects, such as planks of wood.

04

05

04-05 Pack practically and transport directly. The **luggage rack** (04) for the roof bars provides many different transport options and is also suitable for use with longer objects. Another useful helper is the **Volkswagen Genuine wheel roller** (05), which is mounted on the rear roof bar, and lets you simply push objects forward on the roof. It makes loading the roof with bulky loads child's play.

NOTE

Additional transport options, such as the bicycle carriers, can be found in the universal accessories section from page 84 onward.

05

Transport

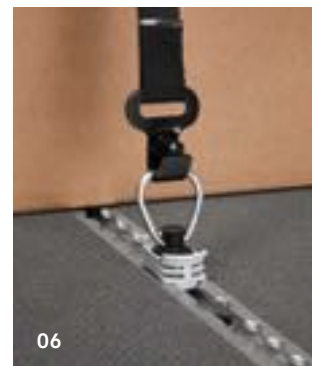

01-02 Tidiness is half the battle. Volkswagen Accessories has the right products to ensure that you keep track even in the stress of everyday transport. Transport your valuable load damage-free to its destination with the **load securing kit** (01). The practical box contains two ratchet tensioning straps, two clamping lock straps, four edge protectors and four non-slip pads to fix loads in place. The brochure supplied provides lots of useful practical tips for the best possible way to secure loads. The stable tailor-made **wall bracket** (02) is simply attached to the partition of the Crafter, ensuring that you have your load securing kit to hand, without any lengthy searching.

03 Take everything you need with you in your Crafter. Provide the base for pulling trailers with the retrofit fixed **Volkswagen Genuine towing bracket**, significantly extending your load capacity. The required 13-pin **electrical installation kit** (not shown) needs to be ordered separately. The **Volkswagen Genuine ball head** for the Crafter with factory-fitted end cross-member and/or towing hitch is simple and quick to screw on and unscrew. It is designed to fit the vehicle and facilitates the safe use of towing equipment. A convenient addition to your Crafter is the **Volkswagen Genuine step**, which makes it easier to enter and exit the vehicle through the rear doors, despite the high entry height.

Transport

04 Safety first. This also applies to the load compartment of your Crafter. The **load securing net** can be simply fastened to the standard lashing points or to lashing strap fittings. You thus have your load under control with belt webbing along its entire length and the clamping lock.

05-06 Properly fixing your load in place can be a tense matter – in the truest sense of the word. Secure even large, heavy loads to the lashing rails in the load compartment to prevent them from slipping around with the **lashing strap with ratchet tensioning lock** (05). Attach, tighten and off you go. The **Volkswagen Genuine lashing strap fitting** (06) is indispensable when it comes to securing your load properly in the load compartment. The lashing strap fitting can be attached to the lashing rails and to the single tensioning point on the tensioning bar.

Comfort and Protection

01-02 Well protected in almost every situation. **Volkswagen Genuine door wind deflectors (01)** enable you to keep the windows slightly open, and enjoy fresh air even when it is raining or snowing. Hard-wearing **Volkswagen Genuine all-weather floor mats (02)** keep dirt and moisture in check in the interior of your Crafter.

Impressive exterior protection. Protect your Crafter and the vehicle behind from flying dirt, hazardous stone chips and spray with the hard-wearing **Volkswagen Genuine mudflaps** (not shown) for the front and rear. Please refer to page 36 for an overview of all models.

03 The Crafter can be this versatile: The vehicle is well prepared for customisation, possibly by second stage manufacturers or fleet management, with **Volkswagen Genuine retrofit control units¹** and/or **Volkswagen Genuine function extension activation documents¹**.

¹ Further information can be obtained from your Volkswagen Commercial Vehicles dealership.

Camping and Leisure

01-03 Off to the country. Simply extend your existing basic table by attaching the **table extension** (01) for the Grand California, conveniently making space for more people at the table. Have your own personal water supply on board with the practical **portable shower** (02), whether you wish to shower in the tailgate tent, do the dishes or wash your dog. Appealing functionality: compactly transport two bikes on the wing door of your Crafter with the **Volkswagen Genuine "Grand California" bicycle carrier for the wing door** (03). Please refer to page 86 for an overview of all technical details and specifications.

Wheels

Alloy wheels

"Brest", 16-inch
Brilliant Silver

Further accessories for your wheels, including the valve caps, wheel bolt locking set, tyre bag set and snow chains, can be found from page 113 onward.

The requirements of the current ABE (German type approval) or current certification must be complied with. Please use the standard-fit wheel bolts provided. Please ensure that the load index (LI) of the selected tyres is not lower than the LI specified in the vehicle documents or CoC papers. All winter alloy wheels are treated with a special ultra-resistant coating to ensure that they are suitable for use in winter.

Accessories **ID. Buzz**

Spaciousness meets technology.

The ID. Buzz is equipped with smart features and offers one thing above all: space. The drive of the future. Complete with matching accessories.

The following vehicle-specific accessories have been specially tailored to your ID. Buzz.

Equally as perfectly fitting, yet model-independent universal accessories can be found from page 76 onward.

Sport and Design

01-03 A good combination of attractive appearance and well constructed protection: **Volkswagen Genuine rear lid protection strip** in Black (01) or Grey (02) with an elegant chromed effect and **Volkswagen Genuine aluminium sill panel mouldings** (03). They help to protect heavily used areas from scratches and paintwork damage. Visual highlight features, complemented by proper protection: a mix that suits your ID. Buzz perfectly. **Volkswagen Genuine load sill protection** in black grained look (not shown) and brushed black (not shown) can protect the paintwork during loading and unloading, but also gives your vehicle a distinctive look. It is quick and easy to attach to the load sill of the rear bumper.

Transport

01-02 You're best equipped out on the road with made-to-measure Volkswagen Genuine transport solutions. Custom-fit **Volkswagen Genuine roof bars** (01) made of aerodynamically shaped aluminium enable a fast and stable installation of all roof structures. The **Volkswagen Genuine partition grille** (not shown) lets you divide up the passenger compartment and luggage compartment in the ID. Buzz. It is a valuable aid and protection when transporting goods. The retrofit fixed (not shown) or swivelling **Volkswagen Genuine towing bracket** (02) provides the base for transporting bicycle carriers or trailers. The required 13-pin **Volkswagen Genuine electrical installation kit** (not shown) needs to be ordered separately.

NOTE

You will find our roof attachments in the universal accessories section from page 87 onwards.

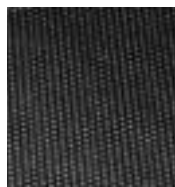

Comfort & Protection

01-06 Easy and versatile custom-fit protection for your ID. Buzz. The **Volkswagen Genuine luggage compartment insert** (01) for the ID. Buzz with a short wheelbase combines practical benefits, protection, convenience and quality. Its slip-resistant surface prevents objects from sliding around. It can also keep dirt and moisture out of your luggage compartment. The tough, durable and custom-fit **Volkswagen Genuine luggage compartment tray** (02) guarantees that your luggage compartment stays clean for longer. The surrounding raised rim can reduce the risk of liquids leaking into the luggage compartment. The wide-ribbed **Volkswagen Genuine boot liner** (03) is hard-wearing and suitable for anything that tends to make a mess in the luggage compartment of your ID. Buzz, such as dirty shoes or plants. It is easy to clean, thanks to its smooth plastic finish. The made-to-measure **Volkswagen Genuine reversible floor covering** (04) for the ID. Buzz provides a suitable surface for any sensitive, dirty or damp goods you need to transport. The robust protective fabric for the load sill can be folded out from the reversible floor covering, and so helps to prevent scratches when loading and unloading. The practical **Volkswagen Genuine load sill protection** (05) is made of transparent film and helps to prevent damage when loading and unloading. It is simply glued to the load sill of the rear bumper. Rely on high-quality **Volkswagen Genuine sill panel moulding films in black/silver** (06) to protect the heavily used sill panel areas of your vehicle. For value preserving protection and attractive design do not need to be contradictory terms.

DETAILS

Once turned, the sturdy plastic studs on the rear side of the reversible floor covering fix it into place so that it can protect your vehicle from even serious dirt and heavy loads.

01-02 For even more comfort on the rear seats. The custom-fit **Volkswagen Genuine sun blind (01)** enhances the comfort of passengers on the rear bench seat of your ID. Buzz by protecting them from direct sunlight on summer journeys. Comfort on the road in almost all weathers. Hard-wearing **Volkswagen Genuine mudflaps (02)** help to protect your ID. Buzz and the vehicle behind from flying dirt, dangerous stone chips, and spray water.

Comfort & Protection

03-04 In line with the principle “It’s what’s inside that matters”, Volkswagen Accessories also sets great store by protecting the interior of your vehicle. Hard-wearing **Volkswagen Genuine all-weather floor mats (03)** with ID. Buzz silhouette on the front mats help to keep dirt and moisture out of the footwell of your vehicle. Custom-fit **Volkswagen Genuine “Premium” textile floor mats (04)** made of hard-wearing velour feature ID. lettering on the front mats. The mats can be secured to prevent them from slipping, thanks to the securing system and the coating on their rear. Practical **“Plus” rubber floor mats** (not shown) also help to ensure pleasant cleanliness in the footwell of your vehicle.

Wheels

Winter alloy wheels

"Loen", 19, 20-inch
Black

Snow chains

"Servo 9", 19-inch

Further accessories for your wheels, including valve caps, wheel bolt locking sets, tyre bag sets and snow chains, can be found in the universal accessories section on page 113.

The requirements of the current ABE (German type approval) or current certification must be complied with. Please use the standard-fit wheel bolts provided. Please ensure that the load index (LI) of the selected tyres is not lower than the LI specified in the vehicle documents or CoC papers. All winter alloy wheels are treated with a special ultra-resistant coating to ensure that they are suitable for use in winter.

Accessories **Multivan**

An icon that moves with the times: the Multivan is spacious, practical and comfortable. Yet, at the same time, innovative and pioneering: that is why it is also available as a plug-in hybrid, making it more flexible than ever – also including matching Genuine Accessories.

The following vehicle-specific Genuine Accessories have been specially tailored to your Multivan. Equally as perfectly fitting, yet model-independent universal Genuine Accessories can be found from page 76 onward.

Image shows: Roof bars page 50; roof box page 90, "Johannesburg" alloy wheel page 56

01-02 Visual diversity for a diverse vehicle. The **Volkswagen Genuine load sill protection in stainless steel look** (01) or black grained look (02) can protect the paintwork during loading and unloading, but also gives your vehicle a distinctive look. It is quick and easy to attach to the load sill of the rear bumper.

Transport

NOTE

You will find our roof attachments in the universal accessories section from page 88 onwards.

01-03 You're best equipped out on the road with made-to-measure Volkswagen Genuine transport solutions. Custom-fit **Volkswagen Genuine roof bars** (01) made of aerodynamically shaped aluminium profiles enable a fast and stable installation of all roof structures. The **Volkswagen Genuine extension set** (02) for the roof bars provides you with a single roof bar you can use to flexibly extend the transport options of the roof bars. The roof bar is coordinated to the roof bar set and is easy to fit. The retrofit removable (not shown) or swivelling **Volkswagen Genuine towing bracket** (03) provides the base for transporting bicycle carriers or trailers. The required 13-pin **Volkswagen Genuine electrical installation kit** (not shown) needs to be ordered separately.

Comfort & Protection

01-04 Custom-fit protection for your Multivan can be this easy and versatile. Practical benefits, protection, convenience and quality come together in the **Volkswagen Genuine luggage compartment insert (01)** for the Multivan with a short wheelbase. Its non-slip finish also helps to stop items from sliding around. It can also keep dirt and moisture out of your luggage compartment. The tough, durable and custom-fit **Volkswagen Genuine luggage compartment tray (02)** can help to ensure that your luggage compartment stays clean for longer. The surrounding raised rim reduces the risk of liquids leaking into the luggage compartment. The wide-ribbed **Volkswagen Genuine boot liner (03)** is durable and suitable for anything that tends to leave marks in the luggage compartment of your Multivan when transported, such as dirty shoes or plants. It is easy to clean, thanks to its smooth plastic finish. The custom-fit **Volkswagen Genuine reversible floor covering (04)** for the Multivan has a suitable surface for sensitive, dirty or damp goods. The robust protective fabric for the load sill can be folded out from the reversible floor covering, and so helps to prevent scratches when loading and unloading.

DETAILS

Once turned, the sturdy plastic studs on the rear side of the reversible floor covering fix it into place so that it can protect your vehicle from even serious dirt and heavy loads.

01

01-02 Rely on high-quality **Volkswagen Genuine sill panel moulding films in black/silver (01)** to protect the heavily used sill panel moulding areas of your vehicle. Protect your Multivan and the vehicle behind from flying dirt, hazardous stone chips and spray with these hard-wearing **Volkswagen Genuine mudflaps (02)**.

02

Comfort & Protection

03

04

03-04 Separate the vehicle interior from the luggage compartment in your Multivan with the **Volkswagen Genuine partition grille (03)**. It can be a useful aid when transporting loads of all kinds or when dogs are on board. The practical **Volkswagen Genuine load sill protection (04)** is made of transparent film and helps to prevent damage when loading and unloading. It is simply glued to the load sill of the rear bumper.

Comfort & Protection

01

01-04 In line with the principle “It’s what’s inside that matters”, Volkswagen Accessories attaches great importance to protecting the interior of your vehicle. The tailor-made **Volkswagen Genuine “Premium” textile floor mats (01)** with BULLI lettering made of hard-wearing velour, can help to ensure comfort and cleanliness in your Multivan. The mats can be secured to prevent them from slipping, thanks to the securing system and the coating on their rear. Hard-wearing **Volkswagen Genuine all-weather floor mats (02)** with BULLI lettering on the front mats help to keep dirt and moisture out of your vehicle. Practical **“Plus” rubber floor mats (03)** and **“Plus” textile floor mats (04)** can also help to ensure pleasant cleanliness in the footwell of your vehicle.

Camping and Leisure

01 Have your own personal water supply on board with the practical **portable shower**, whether you wish to shower in the tailgate tent, do the dishes or wash your dog.

This table shows the available options with the individual products and our current vehicle models.
Please contact your Volkswagen dealership for more information about whether the options can be installed on your particular vehicle.
The specified installation times are guidelines, 100 TU (time units) correspond to one hour. Valid from January 2023.

Accessories **T6.1**

T6.1 – one for all. The T6.1 is the right choice when versatility and durability, or even aesthetics and prestige, are called for. For tough working days and comfortable after-work leisure time. It's great that it has the right Genuine Accessories for almost all these many uses.

The following vehicle-specific Genuine Accessories have been specially tailored to your T6.1. Equally as perfectly fitting, yet model-independent universal accessories can be found from page 76 onward.

Image shows: Roof bars page 63, wheel roller page 64, towing bracket page 64

Sport and Design

01-03 Gleaming highlights with practical benefits. The mirror-finish stainless steel (01) or black (02) **side bars** can help to visually enhance the side line of your T6.1, giving your vehicle an even sportier appearance. They can be fitted in next to no time, thanks to the fastening material supplied. Accentuate the unmistakable character of your T6.1 with the **footboards** (03) in elegant black, creating a visual statement with the stainless steel applications. Thanks to their non-slip rubber strips, the footboards, which have a load-bearing capacity of 200 kg, make it easier to enter the vehicle, at the same time offering easier access to the roof.

Sport and Design

01-04 Visual diversity for a diverse vehicle. The **Volkswagen Genuine load sill protection in stainless steel look** (01) or black grained look (02) can protect the paintwork during loading and unloading, but also gives your vehicle a distinctive look. It is quick and easy to attach to the load sill of the rear bumper. This almost invisible and made-to-measure **Volkswagen Genuine transparent load sill protection film** (03) can help to prevent minor damage during loading and unloading. Create an eye-catching feature on your T6.1 with the attractive **Volkswagen rear protection strip with a high-gloss chrome look** (04), at the same time helping to protect the sensitive edge of the tailgate.

01-02 You're best equipped out on the road with tailor-made Volkswagen Accessories' transport solutions. Custom-fit **Volkswagen Genuine roof bars** (01) made of aerodynamically shaped aluminium profiles enable a fast and stable installation of all roof structures. The **Volkswagen Genuine extension set** (02) for the roof bars provides you with a single roof bar you can use to flexibly extend the transport options of the roof bars. The roof bar is coordinated to the roof bar set and is easy to fit.

01-03 Another useful helper is the **Volkswagen Genuine wheel roller** (01), which is mounted on the rear roof bar, and lets you simply push objects forward on the roof. It makes loading the roof with bulky loads child's play. The **Volkswagen Genuine luggage rack** (02) for the roof bars offers a wealth of different transport options, and is ideal for longer objects. Thanks to its plastic-coated steel construction, the rack is durable and weather-resistant. The retrofit fixed (not shown) or removable **Volkswagen Genuine towing bracket** (03) provides the base for transporting bicycle carriers or trailers. The required 13-pin **electrical installation kit** (not shown) needs to be ordered separately.

Transport

04-05 Heading off in your leisure time. Your T6.1 will come along with you. The **Volkswagen Genuine bicycle carrier for the tailgate "Premium"** (04) and **"Comfort"** (05) for space-saving transport on the rear of the vehicle, are tailored to the line of the T6.1. The fully pre-assembled carriers can transport up to four bicycles on the rear of the vehicle. You can still open the tailgate, even when the carrier is attached without bicycles. This also applies to the electric tailgate with the "Premium" carrier. The removable and lockable bicycle frame holders can help to ensure convenient, secure loading of the "Comfort" tailgate carrier.

NOTE

Please refer to page 86 for an overview of all technical details of Volkswagen Genuine bicycle carriers.

DETAILS

Once turned, the sturdy plastic studs on the rear side of the reversible floor covering fix it into place so that it can protect your vehicle from even serious dirt and heavy loads.

01-04 Custom-fit protection for your T6.1 can be this easy and versatile. Practical benefits, protection, convenience and quality come together in the **Volkswagen Genuine luggage compartment insert** (01) for the Multivan, Caravelle or California with a short wheelbase. Its slip-resistant surface prevents objects from sliding around. It can also keep dirt and moisture out of your luggage compartment. The wide-ribbed **Volkswagen Genuine boot liner** (02) with Volkswagen lettering is durable and suitable for anything that tends to leave marks in the luggage compartment of your Multivan, Caravelle or California when transported, such as dirty shoes or plants. It is easy

to clean, thanks to its smooth plastic finish. The custom-fit **Volkswagen Genuine reversible floor covering** (03) for the Multivan has a suitable surface for sensitive, dirty or damp goods. The robust protective fabric for the load sill can be folded out from the reversible floor covering, and so helps to prevent scratches when loading and unloading. Separate the passenger compartment from the luggage compartment in the Multivan or Transporter with the **Volkswagen Genuine net partition** (04). It can be a useful aid when transporting loads of all kinds, or when dogs are on board.

Comfort and Protection

05-08 Well equipped for almost every situation. The **Volkswagen Genuine door wind deflectors** (05) enable you to keep the windows slightly open and enjoy fresh air in your T6.1 even when it is raining or snowing. Rely on high-quality **Volkswagen Genuine sill panel moulding films in black** (06) to protect the heavily used sill panel areas of your vehicle. So that scratches hardly have a chance and you still enjoy getting into the vehicle for a long time. Protect your T6.1 and the vehicle behind from flying dirt, hazardous stone chips and spray with these hard-wearing **Volkswagen Genuine mudflaps** (07). Steady speed at the push of a button: with the retrofit **Volkswagen Genuine cruise control system**^{1,2} (08). The reset function automatically accelerates to the speed previously set after braking and/or gear changes.

¹ Gradients and slopes may affect the performance of the cruise control system. Please take system limits into account.

² Only for vehicles without multifunction steering wheel.

01

Comfort and Safety

01-04 In line with the principle “It’s what’s inside that matters”, Volkswagen Accessories attaches great importance to protecting the interior of your vehicle. Durable **Volkswagen Genuine all-weather floor mats (01)** with Volkswagen lettering on the front mats help to keep dirt and moisture out of your vehicle all year around. The tailor-made **Volkswagen Genuine “Premium” textile floor mats (02)**, made of hard-wearing velour, help to ensure comfort and cleanliness in your T6.1. The mats can be secured to prevent them from slipping, thanks to the securing system and the coating on their rear. Practical **“Plus” textile floor mats (03)** and **“Plus” rubber floor mats (04)** ensure pleasant cleanliness in the footwell of your vehicle.

01

01-03 Transform your T6.1 into a veritable all-rounder, thanks to innovative Volkswagen Accessories' solutions. The **Volkswagen Genuine tailgate tent** (01) attaches quickly to the open tailgate, giving you a practical extension to your living space on camping trips. You can use the tailgate tent together with the mobile shower (Figure 06, page 71) as a shower cabin, toilet cubicle or weather protection. Also practical: the removable tunnel entrance and mosquito window that can be sealed.

02

The **Volkswagen Genuine MultiFlex board** (02) is a real all-rounder. If used with a mattress, it can be used as a comfortable bed or as a versatile shelf. Also recommended for camping holidays or longer days out: the **Volkswagen Genuine refrigeration and insulation box** (03) for the vehicle rail system in the Multivan or California Beach. The box, which holds 32 litres, ensures that your snacks and drinks are kept at the right temperature, whether hot or cold.

03

01 The image shows: "Dakar" alloy wheels page 72

Camping and Leisure

04-06 Welcome home: the **"Bus Box" mobile kitchen** (04) guarantees even more cooking enjoyment when camping. It features a washing facility with a large canister, versatile shelves and a pull-out table. There's plenty of space for your pots and tableware. And the ingenious idea: when fully folded down, the camping kitchen can be used with the **mattress** (05) as a bed or couch. Have your own personal water supply on board with the practical **portable shower** (06), whether you wish to shower in the tailgate tent, do the dishes or wash your dog.

Communication

Communication

01-02 Never lose the connection. The **USB premium connecting cables** (01) can help with this. Use the specially developed cables to connect your smartphone to your Volkswagen's infotainment system, and make use of functions, such as CarPlay™¹ in the App-Connect. Your device is charged at the same time. Refer to page 81 for an overview of connector versions and cable lengths. The **Volkswagen Genuine DUCI-S** (02) with max. 2 x 18 watts lets you rapidly charge your devices using a USB-A and USB-C port. Simply plug the DUCI-S into the 12 or 24 V socket in the vehicle.

¹ "iPhone", "iPod", "iPad", "iPad mini", "iPad Air", Apple Lightning and CarPlay are registered trademarks of Apple Inc.
Galaxy Tab is a registered trademark of Samsung Electronics Co. Ltd.
Android is a registered trademark of Google Inc.

Communication

01-03 Well connected. The **App-Connect activation document**¹ (01) for the MIB Standard and MIB2 Entry brings MirrorLink™, Apple's CarPlay™² function, and Google's Android™² function to the touchscreen of your Volkswagen Infotainment system for vehicles from model year 2016 onward. The universal **"Smartfit Evolution" smartphone holder**³ (02) with 3D ball joint and flexibly adjustable retaining clamps means that your mobile phone is in sight, for navigation and more.

Following activation using the **Volkswagen Genuine activation document for voice control**^{1,4} (03), you can control the phone and radio features of the "Composition Media" radio, and also operate the "Discover Media" navigation system without taking your hands from the steering wheel. Can only be used for vehicles from model years 2016-2020.

¹ Please enquire at your Volkswagen dealership whether the options can be installed on your particular vehicle.

² "iPhone", "iPod", "iPad", "iPad mini", "iPad Air", Apple Lightning and CarPlay are registered trademarks of Apple Inc. Galaxy Tab is a registered trademark of Samsung Electronics Co. Ltd. Android is a registered trademark of Google Inc.

³ Do not operate your smartphone while driving.

⁴ Please refer to page 81 for an overview of all models.

Transport

01-05 Volkswagen Accessories gives you the freedom to simply and conveniently take your bicycles with you. There is a wide range of towing bracket bicycle carriers to suit almost every requirement. The flexible, extendible **Volkswagen Genuine "Basic Flex" towing bracket bicycle carrier** (01) is suitable for transporting two or three bicycles. Thanks to the extra-large folding mechanism (02), the luggage compartment can also be opened even on vehicles with large tailgates. The **extension set** (03) for a third bicycle means that it can be flexibly adapted to your needs. The lightweight **Volkswagen Genuine "Premium" bicycle carrier** (page 84) impresses with its innovative fixing and effortlessly simple assembly with its lever-free locking mechanism. It is suitable for transporting two bicycles or electric bicycles. The lightweight and compact folding **Volkswagen Genuine "Compact II" bicycle carrier**¹ (shown on page 84) carries two bikes or electric bikes weighing up to 60 kg, and can conveniently be folded down using a large foot pedal to ensure that the tailgate remains accessible. A handy **transport bag** (04) to protect the bicycle carriers is also included. Also available as the **Volkswagen Genuine "Compact III" bicycle carrier** (pictured on page 85) for three bicycles. The **Volkswagen Genuine "Basic" bicycle carrier** (pictured on page 85) for the transport of two bicycles or electric bicycles impresses with its low weight even under maximum load. The carrier can be folded down completely to a very small size and stowed away to save space. The divisible **Volkswagen Genuine loading ramp** (05) helps to conveniently push bicycles onto all Volkswagen Genuine bicycle carriers. A storage bag is included.

The transport bag (04) is included with "Compact II/III" bicycle carriers. The bag is available as an option for "Premium" and "Basic" bicycle carriers.

SPECIAL FEATURES

90° folding function: The foot pedal enables the Volkswagen Genuine "Premium" and Volkswagen Genuine "Basic Flex" bicycle carriers to be folded out extra wide so that the luggage compartment can still be accessed, even on vehicles with large tailgates.

¹ Also suitable for transporting up to two electric bikes.

Bicycle carriers at a glance

NOTE

Please note the drawbar load of the vehicle-specific towing bracket.

The standardised factory-fitted FIX4BIKE connection can be used to attach your Volkswagen towing bracket bicycle carrier. This does not increase the payload.

Product weight [kg]	4.2
Max. load [kg]	20
Mount point	Frame/wheel
Bicycle frame diameter	22–80 mm round tube / 80 x 100 mm oval tube
Suitable for tyre widths	3"
Compatible with quick-release axles	All
Dimensions [L x W x H] in cm	145 x 32 x 9
Adjustable quick-action tensioner for wheels	●
Lockable: bicycle onto holder and holder onto roof bars/cross bars	●
Suitable for bicycles with disc brakes	●
Suitable for roof carriers with 20 x 20 mm T-grooves	●
Suitable for roof carriers with square profiles	○
Other	<ul style="list-style-type: none"> - Rotary knob with integrated torque limiter for fast and easy attachment of the bicycle frame - Can be attached to the vehicle roof facing either direction - Easily moved without tools

PRACTICAL

Thanks to the practical pull-out function, the ski and snowboard holder is easy to load and unload.

01-02 Off to the slopes. The lockable **Volkswagen Genuine "Comfort" ski and snowboard carrier** (01) with pull-out function lets you transport your valuable skis or wakeboard conveniently on the roof of your Volkswagen. Also available as the **Volkswagen Genuine "Basic" ski and snowboard carrier** (not shown) without pull-out function. The roof bars or cross bars provide the base for this. The practical **Volkswagen Genuine ski bag** (02) helps to protect up to four pairs of skis and poles when transported in a roof box or secured by a seat belt in the interior of the vehicle.

03-04 Leisure time is calling – and Volkswagen Accessories has the right transport solutions for it. The **surfboard carrier** (03) transports your surfboard and its two-piece mast safely to its destination. Thanks to its movable rubber supports, the **Volkswagen Genuine kayak holder** (04) ensures an almost non-slip and judder-free transport of any kayak weighing up to 25 kg.

Roof boxes at a glance

Roof box "Basic 460"	Roof box "Urban Loader"
Matt Black	Matt Black
460	300–500 (variable)
2300	1408
390	259–517 (variable)
750	886
21	15
75	50
T-groove rails	U-shaped bracket

NOTE

The innovative DuoLift system allows the roof box to be opened with ease from both sides (applies to the "Comfort 460" roof box).

In vehicles with rod aerials, the aerial may come into contact with the roof box depending on the vehicle model and aerial length. The aerial may have to be unscrewed if necessary. Depending on the vehicle configuration or model selection, the roof box may collide with the tailgate when open due to the different lengths. Please note the vehicle-dependent loads.

This table shows the available options with the individual products and our current vehicle models.
Please contact your Volkswagen dealership for more information about whether the options can be installed on your particular vehicle.
The specified installation times are guidelines, 100 TU (time units) correspond to one hour. Valid from January 2023.

Comfort and Protection

Comfort and Protection

01-03 Why not show what you have? Give your Volkswagen even more individuality with the domed **Volkswagen Genuine "Wolfsburg Crest" badge (01)** in high-grade black/chrome. The set includes two badges. A tidy matter. Quickly get rid of candy wrappers and chewing gum papers and prevent them from flying around the inside of your Volkswagen in the **Volkswagen Genuine waste container (02)** for the drink holder. The energy-efficient (A++) **Volkswagen Genuine cool and thermos box (03)** holds 25 litres, allowing you to keep snacks and drinks at the right temperature during the journey. The box connects to a 12 V / 230 V socket in the car or home.

01 A tidy house, a tidy mind, a tidy Volkswagen. The **Volkswagen Genuine “Clean Solution” waste bag** for the headrest struts of the front seats, can help to keep the interior of your vehicle clean and tidy. When a bag is taken out, a new one is automatically pulled into place.

Comfort and Protection

02 The energy-efficient **Volkswagen Genuine LED reading lamp** with adjustable swan neck and Volkswagen logo lets your passengers enjoy a comfortable and glare-free light when travelling in the dark. The lamp is connected to the cigarette lighter or a 12 V socket in the vehicle.

NOTE

One base, so many options: all the different modules can be mounted easily onto the base module and flexibly swapped as required.

Keen to learn about even more ingenious ideas? No problem. The modular **travel and comfort system** enhances comfort for child and adult passengers in the passenger compartment. Tablet holders for various models and the folding table¹ provide a host of new possibilities for passing the time. The bag hook² and clothes hanger² may be the most convenient ways of transporting your belongings with care when no one is sitting on the rear bench seat.

01 Base module

02 Folding table with drink holder¹

03 Clothes hanger²

04 Bag hook²

05 Action camera holder³

06 Tablet holder for Apple iPad 2-4⁴

Tablet holder for Apple iPad Air 1-2⁴ (similar to the illustration)

07 Tablet holder for Apple iPad mini 1-3⁴

08 Tablet holder for Samsung Galaxy Tab 3/4⁴ 10.1"

¹ The folding table with drink holder needs to be folded away during your journey if a person is sitting on the rear bench seat behind it.

² Only usable if a passenger is not seated on the rear bench seat behind it.

³ This function depends on the Infotainment system in your vehicle. Please observe the notes in your vehicle manual. Never watch recordings when driving.

Comfort and Protection

NOTE

The swivelling, lockable arm and 360° rotating bracket with marked degree intervals make it easy to align the camera with the area you wish to view.

NOTE

Complete flexibility: the swivelling axle allows you to use the tablet in both portrait and landscape modes.

Child seats at a glance

Rest assured. Your most precious treasures are well secured and sitting comfortably on board in our child seats – from babies onward. Four thoroughly tested Volkswagen Genuine child seat models are available, some with innovative SecureGuard technology.

NOTE

Thanks to the base station's practical rotation function, the seats can be rotated 90° in both directions.

01-02 With the innovative Volkswagen Genuine Child Seat System, you receive a high level of comfort and flexibility for the well-secured transport of your little ones from birth to 15 months (approx. 83 cm / 13 kg). The system consists of the **Volkswagen Genuine "Flex Base i-SENSE"** base station (01) and the specially designed **Volkswagen Genuine "i-SIZE" infant carrier** (02). Once the base station has been attached to the vehicle, the Volkswagen Genuine "i-SIZE" infant carrier can be easily installed and removed again with just one click, with or without the sun shade. Thanks to its practical 90° rotating function, placing and strapping in, or unstrapping and lifting out your baby literally becomes child's play. When the vehicle is moving, the infant carrier faces against the direction of travel. In addition to its rotating function, the base station can also be adjusted to one of four tilting angles. A number of safety functions, like the 5-point belt system, make sure that your baby is secure and comfortable when you're on the road.

NOTE

A matching Volkswagen Genuine seat cover for underneath is listed on page 105.

NOTE

Thanks to the base station's practical rotation function, the seats can be rotated by 360°.

03 The Volkswagen Genuine “Dualfix i-SIZE” is suitable for newborns and toddlers up to the age of four years (approx. 105 cm / 18 kg). Thanks to the 360° rotation function, the seat can face both forwards and backwards. You are recommended to use the backwards-facing position to transport your child for as long as possible. With six seat positions and a number of adjustment options, the seat grows with your child, making it useful for many years. The seat features innovative safety functions, such as the SICT side impact protection or the ISOFIX Pivot Link system.

04 The Volkswagen Genuine “TRIFIX i-SIZE” is the first child seat after the infant carrier, because it is suited to the needs of children between approx. 76 and 105 cm. Thanks to the built-in ISOFIX and Top Tether fittings, it is easy and convenient to install. The enhanced seat cushion ensures that your child has enough space while they grow – from 15 months to around four years old (approx. 76–105 cm / up to 18 kg). A total of four adjustable positions offer a high level of comfort for your little ones. Thanks to innovative safety functions, like the SICT side collision protection, the V-shaped head restraint and the Pivot Link ISOFIX system, impact forces are cushioned in the event of an accident – after all, your child’s safety is the number one priority. The ISOFIX connectors are integrated directly into the “TRIFIX i-SIZE” and leave the infant carrier and base free for little brothers or sisters.

05

06

f05-06 Your children aged 3½ to 11 years (approx. 100–150 cm / 15 to 36 kg) will enjoy comfortable and safe journeys in the Volkswagen Genuine “KIDFIX i-SIZE” (05). Thanks to the soft, padded fabric cover and the ventilation holes in the seat, your little ones will enjoy a comfortable temperature during every journey. And with its various safety features, such as the special seat frame, the optimised seat belt guides at the top and bottom, and the padded head restraint, your child is well secured and also very comfortable. Another feature is the innovative SecureGuard, which provides protection to your child’s stomach thanks to an additional fourth seat belt fastening. The backrest can be removed for greater flexibility for children over approx. 138 cm. For safety reasons, however, the backrest should remain attached to the seat for as long as possible. Thanks to the seat’s slim design, up to three KIDFIX i-SIZE seats can be installed next to one another, depending on the vehicle. The child seat is also available in a sporty GTI version (06) – with the same high standard of comfort and protection.

01 Volkswagen Genuine care and cleaning products were developed to work perfectly together in and on the vehicle. For long-term, effective vehicle care to protect both the material and the environment. Please refer to page 105 onward for more information on the individual products, as well as our seasonal care and cleaning sets.

02 The **Volkswagen Genuine first aid kit** meets the legal requirements of section 35h of the German Road Traffic Licensing Regulations and DIN 13 164, and is ideal in the event of an emergency.

03 This **5-litre fuel canister** helps you bridge the distance to the next service station.

04 The **“Evolution” emergency hammer** with seat belt cutter and ceramic hammer head gives you the good feeling of being able to help yourself in an emergency.

05 Bid farewell to ice and snow with the **Volkswagen Genuine ice scraper**, and free your Volkswagen from wintry obstacles in an instant. Also available as a version with telescopic rod or snow brush.

06 This clever-designed **Volkswagen Genuine warning triangle** is ECE-certified, requires minimal storage space, and can be set up easily and quickly thanks to its swivelling metal foot.

07 The **Volkswagen Genuine breakdown assistance safety package** comes into its own in the event of a breakdown. It includes a sensible selection of products in a hard-wearing bag.

08 The **Volkswagen Genuine fire extinguisher** containing 1 kg of extinguishing powder ensures that you are well prepared in the event of an emergency, such as a vehicle fire. A **holder** to securely fix it in the footwell is available separately.

09 Absolutely necessary and legally prescribed: the orange-coloured and fluorescent **Volkswagen Genuine high-visibility waistcoat**¹ with Volkswagen lettering and reflective signal stripes.

¹ As of 1 July 2014, all drivers in Germany are required by law to carry a high-visibility waistcoat in their vehicle – with the exception of motorbikes and mobile homes – and in other European countries, a high-visibility waistcoat must be carried for all vehicle passengers.

Comfort and Protection

10 The innovative solution for cleanliness you can feel. The refillable **Volkswagen Genuine 2-in-1 display cleaner** combines a cleaning spray and microfibre cloth, and comes in a range of colours. Simply practical! The display cleaner can be refilled and re-used again and again. Good for the environment and your wallet.

11 Small animals – big impact. If vermin chew on a vehicle's ignition cables or electric systems, they can leave it at risk of breaking down, leading to expensive repairs. Prevent these pests in advance with effective **vermin repellent** products – from preventively effective deterrent spray¹ to electronic products. Refer to page 107 for an overview of all products.

¹ Use vermin repellent spray safely. Always read the label and product information before use.

Charging

Charging

01-03 Do you want to be flexible when it comes to charging – wherever you happen to be? Then, the intelligent Volkswagen Genuine charging system **ID. Charger Travel** (01) is just the right product for you. The ID. Charger Travel is a control unit that works like a mobile wall box. It lets you charge with the same power that you get from a wall box. It detects the adapter plug connected and thus regulates the maximum permitted current rating, among other things, depending on the available power and the maximum current rating set in the vehicle¹. There are various optional **charging connectors** (02) to fit the ID. Charger Travel. So now you're well equipped, even when driving abroad. The custom-fit **wall bracket set** (03) provides a permanent and secure location in your garage or carport.

04-05 An ideal product when out and about. The practical **Volkswagen Genuine emergency charging cable** (04) including storage bag lets you simply charge your electric vehicle on a normal household socket even without a charging station². This lets you continue your journey to the nearest charging station. The use of a wall box is recommended to fully charge your vehicle overnight at home. Use the handy **folding box** (05) to conveniently transport the ID. Charger Travel, the necessary charging connectors or also the emergency charging cable in your luggage compartment.

NOTE

An overview of all mains cables can be found on page 110.

NOTE

All Comfort and Protection products for ID. vehicles, such as the M9900 vermin repellent, can be found in the universal accessories section on page 107.

¹ Please note the values and information in your vehicle wallet regarding charging.

² The socket needs to be in perfect technical working order and have been professionally installed.

ID. Buzz Pro: Power consumption in kWh/100 km: combined 18.9; CO₂ emissions in g/km: combined 0; efficiency class: A+++

01-06 Personalise your Volkswagen down to the smallest detail with the **Volkswagen Genuine valve cap set** (01) for aluminium or rubber/brass valves. Provide anti-theft protection for your precious alloy wheels with the **Volkswagen Genuine wheel locking set** (02). The **Volkswagen Genuine Original tyre bag set** (03) helps to protect your Volkswagen's high-grade wheels. There are different versions of the set for different tyre sizes. A highlight for your Volkswagen. **Volkswagen Genuine dynamic hub caps** (04) with an embossed Volkswagen logo impress with their dynamic spinning function and, even at a speed of 200 km/h, guarantee that the logo is positioned correctly while driving and in any parking position. Keep a real grip on things. Even in wintry conditions. **Volkswagen Genuine "Snnox" snow chains**¹ (05) and **Volkswagen Genuine "Servo SUV" snow chains**¹ (06) feature an innovative fastening system and an automatic tensioning function. So you can reach your destination safely even on snowy roads.
